

90 DAY NOTICE TO VACATE

[date]

Dear [resident name]:

We previously notified you of plans to rehabilitate the property you now occupy. At that time, you were advised the rehabilitation would require you to relocate.

This is your 90 Day Notice to Vacate.

You may be required to move from your current apartment within the next 90 days. Construction will be completed in phases. We will notify you 30 days prior to the time that construction will start on the phase where your unit is located.

When construction is complete, you will have the following options:

1. You may be able to move back to a newly renovated apartment if you meet the eligibility criteria.
2. You may be able to remain in the temporary unit if it is off-site.
3. You may choose to voluntarily accept permanent relocation.
4. You may receive a Housing Choice Voucher if becomes available in the future.

Temporary relocation assistance will be provided and will include the following:

- **Packing Materials and Assistance** – All necessary materials needed to pack will be provided to you and if you request, packing assistance will also be provided.
- **Moving Assistance** – A private moving company will move everything that you need to your temporary relocation unit and return all your belongings back to your newly renovated apartment.

If you wish to begin packing in anticipation of the upcoming move, materials will be available at the Resident Services office at Brookhaven.

If you have any questions about this notice and your eligibility for relocation assistance and payments, please contact TGHHA Resident Services staff at <<phone>>.

Sincerely,

Kathy Mitchell
Property Manager
